

## INTRODUCTION

RIJNMOND AIR SERVICES, a Part-145 Aircraft Maintenance organization since 1981 and its subsidiary,

INTERNATIONAL AVIONICS SERVICE, a Part-145 organization specialized in avionics maintenance and modifications since 1962,

Combine over 70 years of expertise in full aircraft maintenance support for commercial operators and corporate operators as well as the General Aviation community.

90% of all RAS/IAS engineers have over 15 years of maintenance experience and are all fully EASA licensed. Their skills and dedication ensures excellent maintenance support and quality.

Being a relatively small organization, RAS and IAS offer you their dedication and flexibility, managed by a professional management team.

Over the years RAS and IAS have build an excellent reputation with regular clients as well as with aviation authorities and auditors.

With its modern 2.728 m2 home base hangar located at ROTTERDAM AIRPORT, THE NETHERLANDS the organization has a central location in Europe serving a wide variety of customers including one of the largest business jet operators in the world. We serve our clients not only at our home base but throughout the European continent for Base-, Line- and AOG support.

**The Part-145 capability includes most common business jets and turboprops.**

## APPROVALS

Rijnmond Air Services

**Part-145 # NL.145.1162**  
 Cessna NDT authorization  
 Piaggio Aero Service center  
 FAA A&P/IA available  
**CAMO+ # NL.MG.8162**

International Avionics Service

**Part-145 # NL.145.1134**

Approval scope Base Maintenance:

Dassault Falcon 2000EX

Piaggio P180 Avanti/Avanti II  
 – Official Factory authorized service center

Cessna Citation 525/525A/525B  
 Cessna Citation 500/501 series  
 Cessna Citation 550/551 series  
 Cessna Citation 550Bravo

## AVIONICS

International Avionics Service, abbreviated as I.A.S. is specialized in the installation, overhaul and repair of Avionics & Instruments on board the aircraft or in our avionics repair shop in Rotterdam.

The avionics department is set up to maintain a wide range of aircraft, from corporate jets like the Dassault Falcon 2000EX, Cessna Citation series and the Piaggio P180 to a wide range of General Aviation aircraft such as Piper, Cessna and many more.

I.A.S also supplies a wide range of other services; from minor repairs on headsets and calibration of instruments to installation of the newest generation of avionics. IAS also offers customers annual and bi-annual inspections on avionics and instruments.

Approval scope avionics :

Dassault Falcon 2000EX  
Dassault Falcon 20-5  
Dassault Falcon 50B  
Dassault Falcon 200

Piaggio P180 Avanti/Avanti II

Cessna Citation 525/525A/525B  
Cessna Citation 500 series  
Cessna Citation 550 series  
Cessna Citation 550Bravo  
Cessna Citation 560 XL/XLS  
Cessna Citation 510 Mustang

Fairchild SA226 Metro/Merlin  
Fairchild SA227 Metro III

Beech 1900  
Beechjet 400A/Hawker 400XP  
Dornier 228

and many more..

## SPARES

The Parts department of Rijnmond Air Services and International Avionics Service has a wide range of Commuter and General Aviation parts and components including a large inventory of avionics and accessories. These are ready to ship whenever and wherever you need them.

We also have a large inventory of avionic and accessory parts.

Due to our extensive experience in commercial aviation we know that your down time must be kept to an absolute minimum. If we do not have your part on stock ourselves, we will use all of our resources to find the part that you need, worldwide.

IAS is also dealer for a large group of manufactures and distributors such as Shell Aviation, Honeywell, David Clark, Garmin, S-Tec, to name just a few.

## NICAD BATTERIES

Rijnmond Air Services can offer a specialized service for the aviation community: Nicad battery maintenance

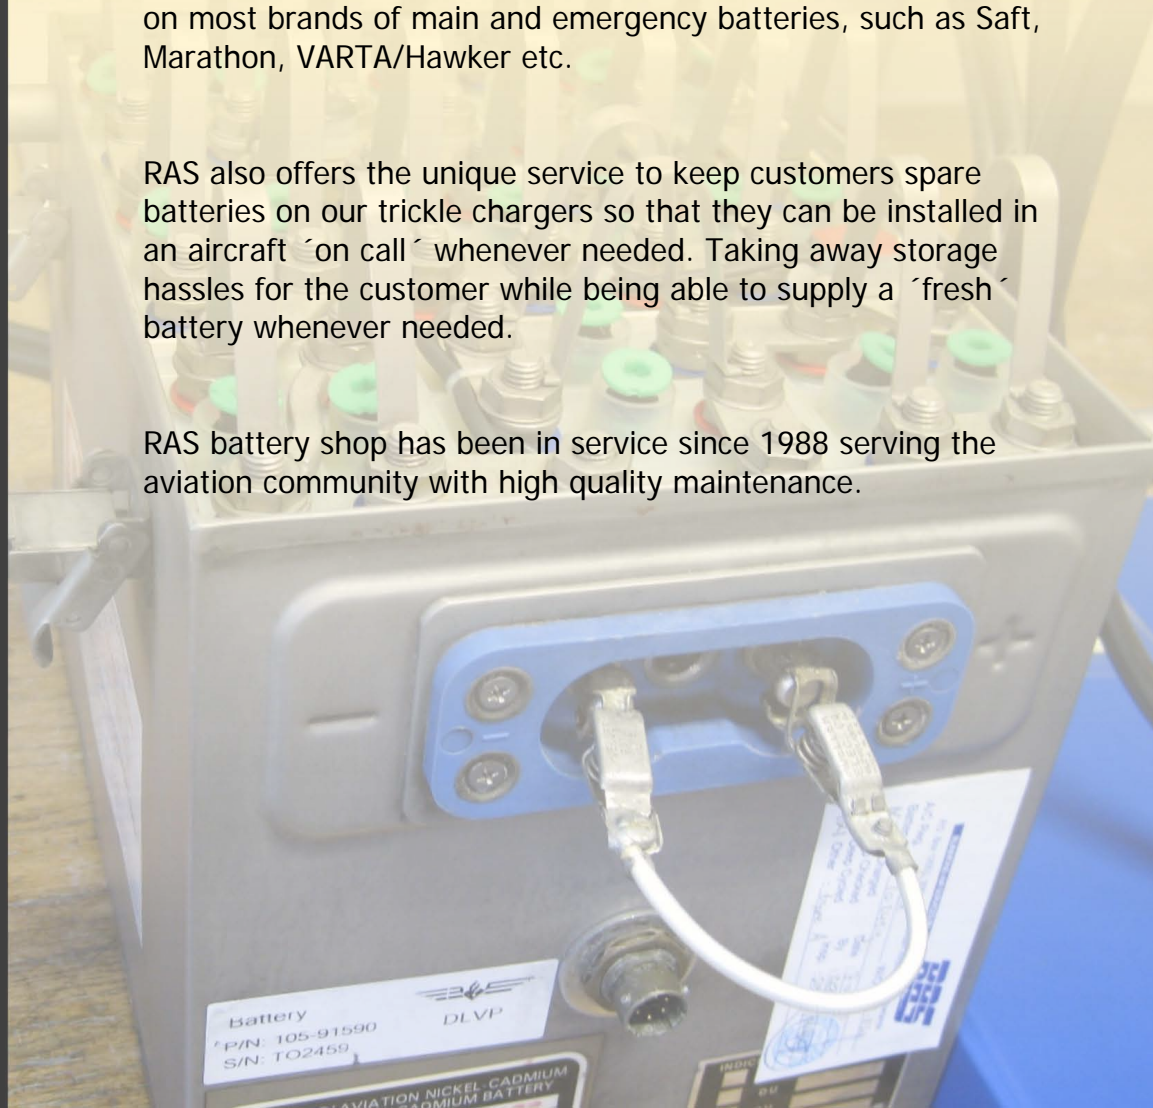

Both General Aviation operators as well as large airliners benefit from the services of the RAS battery shop. Excellent quality and short turn around times are key features of this shop where we can perform:

- Charge
- Captest
- Deepcycle
- Overhaul
- Cell replacement
- Temp sensor functional tests

on most brands of main and emergency batteries, such as Saft, Marathon, VARTA/Hawker etc.

RAS also offers the unique service to keep customers spare batteries on our trickle chargers so that they can be installed in an aircraft 'on call' whenever needed. Taking away storage hassles for the customer while being able to supply a 'fresh' battery whenever needed.

RAS battery shop has been in service since 1988 serving the aviation community with high quality maintenance.

## PIAGGIO AERO P180 SERVICE CENTER

Rijnmond Air Services is European independent Factory Authorized Service Center for the P180 Avanti and new Avanti II and can perform your maintenance with full and dedicated support from Piaggio Aero in Genova, Italy.

## NDT

RAS can serve you with non destructive testing using most common methods such as Eddy current, Radiographic inspection, Magnetic Particle inspection, Ultrasonic inspection and Penetrant inspection thanks to the NDT expertise of Level II and Level III specialists of Tiat Europe as its partner.

RAS and Tiat serve not only the business jet community but also provide their services to commuter operators, wide body operators as well as the General Aviation industry and component vendors.

RAS has been given Cessna authorized independent NDI facility certification. The authorization was granted after a review and audit by Cessna. It allows the company access to all of the equipment and materials needed to perform nondestructive testing on all Cessna Citations.

The authorized tests include Phase 49 and Phase 50 inspections. RAS has been approved to perform the following NDT methods on Citations: ultrasonic, radiography, eddy current, liquid penetrant, bond testing and magnetic particle. The certification expands the company's NDT program.

## INTERIOR REFURBISHMENT

Need a new upholstery, leather seat refurbishment, ultra suede on your side panels or a new carpet ? We can accommodate your needs while being with us for a scheduled maintenance input; cost effective and keeping downtime of your aircraft to a minimum.

Let us surprise you with our high quality and very competitive pricing!
